Yo Y'all All,

Nonresponsive

In other news, I've been activated as part of the virtual incident command for the Animas River mine release. So far only phone calls, but one rumor which isn't dead yet is some combination of the R9 Filed Team and me might be dispatched to collect fish or bugs.

Cheers,

ned

Subject: Next Leviathan sampling dates

Hi Ned,

I hope your trips went well. I am trying to schedule lab testing before the end of year and wanted to let you know that I'll be working at sea the week of Sep. 14. Do you have some dates in mind for the fall Leviathan sampling?

Thanks,

Amy
